

TrialWire SiteSelect — How It Works

Take control of patient recruitment at your site.

1. Join

Pay the \$1,200 annual membership and create your site account. Includes 5 complimentary Select Patients in your first year.

2. Add your studies

Paste an NCT number or inclusion/exclusion criteria. We auto-fetch protocol details from ClinicalTrials.gov.

3. Get matched patients

Pre-screened, de-identified patients matched to your protocols appear in your dashboard with eligibility match scores.

4. Review I/E responses

Check each patient's inclusion/exclusion criteria responses before you commit. Confirm high eligibility before selecting.

5. Select and enroll

Pick the patients you want during your 5-day exclusive selection window. You only pay for the patients you Select.

What's included in membership

- Hosted Salesforce Health Cloud portal
- Up to 3 coordinator seats
- Automated patient email & SMS communications
- 5 complimentary patient selects in year one
- 5-day exclusive selection window
- Cancel any time
